Inspection #884

Note/Recommendation:				
12	BODY: Does paint colour and lustre match across the entire vehicle?			
Note/Recommendation:				
13	BODY: Hood hinges function properly			
Note/Recommendation:				
14	BODY: Hood latch secures properly with no signs of damage			
Note/Recommendation:				
15	BODY: No body panels are loose or have sharp edges			
Note/Recommendation:				
16	BODY: No signs of damage to any piece of glass			
Note/Recommendation:				
17	BODY: Sub-frame assembly is not bent or damaged			
Note/Recommendation:				
18	BODY: Tow hook cover present			
Note/Recommendation:				
19	BODY: Trunk hinges/struts function properly			
Note/Recommendation:				
20	BODY: Trunk latch secures properly with no signs of damage			
Note/Recommendation:				
21	BODY: Vehicle equipped with front and rear license plate brackets which are in good condition			
Note/Recommendation:				
22	STATIONARY TEST: A-pillar interior trim in good condition			
Note/Recommendation:				
23	STATIONARY TEST: All 12v accessory ports functional			
Note/Recommendation:

Inspection #884

24	STATIONARY TEST: All cupholders are operational and in good condition				
Note/Recommendation:					
25	STATIONARY TEST: All door locks function properly				
Note/Recommendation:					
26	STATIONARY TEST: All interior door handles operational				
Note/Recommendation:					
27	STATIONARY TEST: All other interior accessories function properly				
Note/Recommendation:					
28	STATIONARY TEST: All speakers function and sound quality is good				
Note/Recommendation:					
29	STATIONARY TEST: Armrests operational (if applicable)				
Note/Recommendation:					
30	STATIONARY TEST: B-pillar interior trim in good condition				
Note/Recommendation:					
31	STATIONARY TEST: Blower recirculation functions properly				
Note/Recommendation:					
32	STATIONARY TEST: Bluetooth (if available) functions properly				
Note/Recommendation:					
33	STATIONARY TEST: C-pillar interior trim in good condition				
Note/Recommendation:					
34	STATIONARY TEST: Cargo covers in good condition (if applicable)				
Note/Recommendation:					
35	STATIONARY TEST: Center console in good condition, with printing on buttons present				
Note/Recommendation:					
36	STATIONARY TEST: Central lock buttons by driver's seat (or dash)

Inspection #884

73	STATIONARY TEST: Trunk release operational				
Note/Recommendation:					
74	STATIONARY TEST: Vehicle key remote operational and starts vehicle. Keyless start works properly (if applicable)				
Note/Recommendation:					
75	STATIONARY TEST: Vent controls function properly				
Note/Recommendation:					
76	STATIONARY TEST: Windows open and close smoothly				
Note/Recommendation:					
77	ENGINE: Accelerator pedal functions properly and shows no signs of excessive wear				
Note/Recommendation:					
78	ENGINE: All wiring is secure and in good condition				
Note/Recommendation:					
79	ENGINE: Battery is charged				
Note/Recommendation:					
80	ENGINE: Battery is secure and appropriately covered				
Note/Recommendation:					
81	ENGINE: Battery posts and connections show no evidence of corrosion or deterioration				
Note/Recommendation:					
82	ENGINE: Brake fluid level and reservoir/cap in good condition.				
Note/Recommendation:					
83	ENGINE: Clutch functions properly and shows no signs of excessive wear or slippage				
Note/Recommendation:					
84	ENGINE: Clutch pedal functions normally and shows no signs of excessive wear (if applicable)
